IDM; parameters fixed, fitted or from a prior

No adaptation; Context-only calibration

Population prior; Powertrain prior

IDM; parameters predicted by a learned model

Features + boosting†; Network, zero-shot

Network, fine-tuned; Network, held-out vehicle†

Network, no pretraining†; Transformer network†

IDM plus a bounded learned correction

Powertrain prior + residual†

Learned policy, no IDM

Direct-acceleration network†
